

Environmental Sustainability

Strategy 2021-2024

Our commitment

To protect the environment in which we live work and play by empowering every employee and visitor to our workplaces to engage in practices that safeguard our community and planet.

What are we doing?

- » building a culture of waste avoidance, efficiency and innovation
- » choosing wisely in care delivery
- » setting carbon and waste targets
- » measuring, monitoring and reporting on our environmental performance
- » preparing for climate change impacts
- » broadening our champions network
- » working with our partners.

Sunshine Coast
Hospital and Health Service

Exceptional people. Exceptional healthcare.

By 2030 our aim is to be Australia's cleanest greenest Hospital and Health Service; caring for our people and our country.

Through our membership of the Global Green and Healthy Hospitals network we have pledged to take action and do our part to:

- » reduce our environmental footprint
- » strengthen our resilience; and
- » lead the way to a low carbon future.
